Radiographer (MRI/CT)

Job Location
Bath

Salary
£ 31,000 - £ 35,000

Date posted
March 18, 2022

Organisation
Sulis Hospital Bath

Description
Multiple roles within one of England's 40 newly designated diagnostic centres. The diagnostic centre sits within one of the west's leading independent hospitals, Bath, south-west. We are looking for enthusiastic radiographers to join our busy, friendly imaging department. You will be part of a team of skilled radiographers who deliver a high quality of imaging examinations and working closely with consultant partners to provide outstanding patient care.

Radiographer (MRI/CT) £31,000 – £35,000 per annum

We are looking for a cross-sectional radiographer who will work as a skilled and adaptable member of the radiology team to undertake MRI and CT examinations. The unit primarily performs musculoskeletal imaging as well as neurological and body imaging. General radiographic duties (general x-ray/theatre) will be required as part of an on-call commitment plus some weekend work.

About Sulis Hospital Bath

Over 10 years Sulis Hospital Bath has been offering patients exceptional surgical care and a great all-round experience. The hospital utilises state-of-the-art technology alongside a consultant led multidisciplinary team incorporating physiotherapists, occupational therapists and nurses in order to help you get back to a better quality of life.

A new name comes because of our organisation being acquired by the Royal United Hospitals Bath NHS Foundation Trust (RUH). As a leading private hospital in the region, we have a long-standing relationship with our NHS partners. This acquisition enhances and supports this partnership and enables us to continue delivering high quality care to all our patients.

Sulis Hospital Bath was purpose-designed by our doctors, who combined their experience of NHS and private practice, to create a healing experience for our patients. Therefore, we can offer a world-class experience that we ourselves would want to receive.

Sulis Hospital Bath is now one of 40 newly recognised diagnostic centres, which is being backed by the NHS. We have secured a £4.4million investment to enhance our equipment prior to launching the new centre. Our centre is due to install a brand new Siemens Magnetom 1.5T Altea MRI and a Siemens Somatom X.cite CT.

The hospital has a calm yet efficient atmosphere, combining the simplicity and beauty of a modern, well-equipped hospital with a relaxing environment.
